GLOBAL ZERO ACTION CORPS

“Global Zero is grassroots organizing at its finest.”

-UN Secretary-General Ban Ki-moon

At Global Zero, the international movement for the elimination of nuclear weapons, we're fueled by the creativity and passion of young people - members of the world's first post-Cold War generation who understand that nuclear weapons have no place in the 21st century. We know that young people are an incredibly powerful political force and catalysts for real change. That's why we're launching the Global Zero Action Corps, designed to mobilize all-star activists across the country to help us tackle the single biggest security threat of our generation.

ABOUT THE ACTION CORPS

Starting in early 2015, Global Zero will bring together 50 of the country's top volunteer advocates for the inaugural class of the Global Zero Action Corps. During their 1-year service, Action Corps leaders will mobilize their peers, lead creative campaigns and apply real pressure on policymakers to eliminate all nuclear weapons, everywhere. Equipped with unparalleled access to training, resources and movement leaders, the Action Corps will be on the front lines of the fight for a better, safer future.

Action Corps leaders will also have the opportunity to travel to New York City with Global Zero this spring for three days of high level training and action - alongside some of the world's most prominent leaders in the field of international security.

We have two alternatives: live in a world where nuclear weapons will be used or demand a world without them. The choice is ours. Join the fight today.
