International Field Research Application Procedures

Congratulations on your decision to study abroad! You are about to undertake a life-changing experience. The UMBC Department of Health Administration and Public Policy (HAPP) and the Study Abroad Office (SAO, for short) want to do all that it can to help you prepare for your time overseas.

Your first step in participating in the UMBC Affiliate Program is submitting an application. Please read the application instructions carefully. As part of the application procedure, we require you to submit the following pieces of information:

- The attached completed UMBC International Field Research Application Form.
- A short essay (500 word limit, 12 font) in which you describe why you are interested in this program. Please include your rationale for applying to the International Field Research Program and any pertinent background information. For example, if you are interested in a career in health, aging, or scientific research, you might discuss any key issues or considerations associated with the career decisions facing you. How will this be instrumental in achieving your academic goals? Is this related to, or a requirement of your academic program?
- Unofficial UMBC Transcript
- Program deposit of \$200.00, cash or check payable to UMBC.
- Copy of current Passport

Application Deadline: December 3, 2014 to Admin 222

*****Fellowships of up to \$1000 available*****

There is a limit of 24 participants. Early application is strongly recommended.

For additional information: contact Katie Birger, Coordinator, International Field Research Program
cbirge1@umbc.edu or see the website ifr.umbc.edu

To be considered a complete application, all applications must be accompanied by a \$200 deposit. Deposits will only be returned if the student is not accepted into the program or declines the invitation. Deposits can be placed on hold for the next class offering, however.

Courses

Which of the following course(s) do you want to register for? (permission only)

HAPP/SOCY 403

SOCY 663 (*current grad students only, or by permission*)

PHED 121

Research themes

Rank your research theme interest according to 1st, 2nd, 3rd choices:

A lifespan approach to health and aging

How do public policy, clinical practice, and personal choices interact to help individuals of all ages maintain healthy lifestyles? How does stress management affect health and quality of life? How can we be more sensitive to the complexity, interactivity, and cultural diversity of communities, both urban and rural? This team uses an international perspective to investigate the many factors that can influence public health.

Scientific and medicine, technology, revolution, and societal change

Switzerland has a history of scientific innovation and development, including the Large Hadron Collider, a world class transportation system, some of the longest tunnels in the world, pharmaceutical and technological research, and famous historical figures such as Einstein, Paracelsus, and Carl Jung. This team studies the context and consequences of major changes in science, medicine, and technology.

Environmental sustainability and climate change

Switzerland is one of the top rated countries for environmental policy. Climate change has far reaching implications for the environment, including accelerating glacial melt, water supply, disaster preparation, infrastructure investment, and the economy, making Switzerland a microcosm for studying the environment and sustainability.

Arts and the humanities

The arts and humanities challenge us to understand what it means to be human. Visit Roman ruins, explore the historical role of women and children, retrace the footsteps of famous authors, visit castles and cathedrals, or research community music and art. Use your Swiss Pass for access to numerous museums and cultural opportunities!

Cultural heritage, politics, and national identity

Switzerland is comprised of four geographic regions with different languages. It is a global model for the successful political integration of distinct ethnic groups. Governance is decentralized, with considerable participation by citizens. Switzerland also has one of the strongest economies in the world. The Swiss are reported to be one of the happiest of populations. How do they do it? What are key factors in their success?

Humanitarian aid and international relief

Switzerland has long been a leader, internationally, in supporting organizations dedicated to humanitarian aid and relief work. The World Health Organization, the UN High Commissioner for Refugees, and the Conference on Disarmament are headquartered in Geneva, as well as the international Red Cross/ Red Crescent.

Key Dates

- Application Deadline: December 3, 2014 to Admin 222 for complete application**
- After notification of selection, you will receive permission to enroll in linked course(s) spring 2015
- Second deposit installment of \$1750 (less fellowship funding) due March 13, 2015**
