MATHEMATICAL SCIENCES**

FULBRIGHT U.S. STUDENT PROGRAM INFORMATION

The Fulbright U.S. Student Program gives talented UMBC students the opportunity to conduct research, teach English or earn a master's degree in more than 140 countries throughout the world. This merit-based scholarship program offers an exciting opportunity to represent the United States and further your academic and professional goals. Please join this session to learn more about the program, the application process, and UMBC's support system for undergraduate applicants pursuing this life-changing international experience.
