

# *Creating a Productive and Healthy Work Environment: The Power of Leadership*

---

Workshop for Supervisors and Leaders

**A 'healthy' work environment is a high-performance work environment ~ it's one that encourages and supports people to perform at their best.**

**Tending to the work environment is one of the most important things leaders can do. This program is filled with ways to enable your colleagues to accomplish goals faster and easier, with less stress and more enjoyment.**

**Results of recent Gallup Organization research:**

*"Engaged" employees are more productive, efficient, and satisfied.*

*There is a direct correlation between how engaged employees are, and the leadership that is being provided and the work environment that is created by that leadership.*

This engaging workshop is for leaders who are interested in creating a work environment that supports and encourages people to:

- Be 'adaptively resilient' during change,
- Be more efficient and effective,
- Build collaboration and teamwork,
- Get better results, and
- Bring more energy and fun to work.

We will discuss the important role the leader plays to help people:

- Stay focused on the mission, goals, and priorities;
- Make the most of our talent, wisdom, creativity, and time;
- Create a learning environment; and
- Nurture health, focus, mood, and energy.

**Tuesday  
April 5, 2011**

**9:00 am – 12:00 pm**

**University Center  
Room 312**

This workshop is co-facilitated by Terri Werner, Director of Training & Organization Development and Ben Lowenthal, Associate Vice President of Financial Services. Terri brings her knowledge and experience in organization and leadership development, and Ben has real-life examples of how to put these ideas into practice.

You will leave with a personal Action Plan of practical tips you can immediately use and the inspiration to put them into place.

**Register on the web by March 28<sup>th</sup> at: [www.umbc.edu/training](http://www.umbc.edu/training)**

Spaces are limited and pre-registration is required.

*Creating conditions for learning to thrive*
