

Are you expecting your first child?

Or, are you a parent of a child 3 years of age and under?

If so, we need your feedback on a short, educational video for parents and parents-to-be.

You will earn a \$10 Target gift card for participating.

Researchers at the University of Maryland School of Medicine are evaluating the effectiveness of a video about infant positioning for sleep and play on parents' and expectant parents' knowledge.

Parents and expectant parents will watch a 10-minute video about infant positioning and answer questions to see if the video helped them learn more about infant positioning for sleep and play. Each participant will earn a \$10 Target gift card for his or her participation. Participation will last about 30-45 minutes.

Eligibility: You must be a legal guardian of a child 3 years of age and under OR be expecting your first child (moms and dads welcome). You must also speak English.

Dates and Times of Upcoming Focus Groups:

Ellicott City: Howard Co. Library (Miller Branch), Wed. May. 4th, 5:30-6:15

Ellicott City: Howard Co. Library (Miller Branch), Thurs. May. 5th 11-11:45

Catonsville: University of Maryland, Baltimore Co., Wed. May 11th, 5:30-6:15
